HORSE SALE AT AN END.

Well-bred Tratters Disposed of Vesterday at Low Prices-The Funt Mare Charity Snocked Down to E. S. Wells for \$150-David Bonner Scenres Ions Natwood.

Unimportant offerings and extremely low prices marked the close of Kellogg's combina-tion sale of trotting stock in Madison Square Garden yesterday. The highest figures reached were \$750 for the fast mare Charity, 2:29%. Several finely bred youngsters were knocked down at bargain prices during the day. One of these was the chestnut filly Iona Nutwood, a two-year-old of genuine trotting conformation and gait. W. M. Halstead, who sent her to the sale ring, paid \$700 for the filly last November. She was struck off yester-day for \$405, the bld of David Bonner. Another rure good one was Aldale, a four-year-old with all the quality and spirit of a thoroughbred race horse. Auctioneer Kellogg sold three horses of his own breeding, one of them being the fluc-looking young stallion Question, by Discator, Kellogy said that three years ago this horse could earn \$1,000 a year in the stud, but his market value yesterday was only \$100, and this was even more than his owner had expected to receive for him. HAM RIDES TRRES WINNERS. Good Sport at Alexander Island Jockey Boyle Suspended.

WASHINGTON, March 21.- The sport at Alexander island to-day was the best by far that the Old Dominion Jockey Club has ever had, and fully 2,000 persons were present. The track was very fast and the betting quite heavy. In the opening race the money went on Despair, Fon Malheur, and Annie T., but Rama, ridden by George Taylor, came up at the finish and won cleverly by a head. Rama is full brother to Huron, He cost Mr. Pierre Lorillard nearly

\$10,000 as a yearling.
Grand Prix, a speedy gelding, at one time owned by W. H. Sands, won the second race very cleverly at odds of 8 to 5. Little Jim won the third race after a hard struggle with Quilla. The ring was hard hit by Little Jim's victory, and Ham had to ride his hardest in order to win. Boyle pulled Syde up at the start, and win. Boyle pulled Syde up at the start, and failing to give a satisfactory explanation of his conduct, was suspended for alx months. Thurston, at edds on, proved himself a worthy brother to Freeland and Long Knight, by winning the mile dash handily in the good time of 1:43%. Tenacious, a good thing in the fifth race, failed to go through, chiefly because of the poor riding of Washburn. The 5 to 1 chance Cadet beat him on the post. The last race of the day was a good betting event. Trinculo led until the very last stride, when Ham got up with Dillon J., and won by a nose. Benyello at 50 to 1 was third.

The Scante of Illinois Makes Foreign Bookmaking Legal. SPRINGFIELD, Ill., March 21.- The Humphrey

bill, which allows ninety days' racing by associations and legalizes foreign bookmaking, passed the Senate to-day, the vote being 28 to 18. The the Senate to-day, the vote being 28 to 18. The measure is being pushed, it is generally stated, in the interests of the Chicago race tracks, notably Washington Park, which closed its gates for this sesson until pool selling became legal. The ninety-day clause in the proposed law is more in the interests of liaritem and Hawthorne. It is alleged that the passage of the bill was forced by Schator Humphrey in return for the support of the Chicago civil service reform measure, which is now a law.

STANDING OF GELDINGS. An Official Assorptoment of Their Eligh hillty for the Berby.

From the Spirit of the Times. tion as to the eligibility of a gelding entry to the English Derby was raised last week brough the announcement that Mr. P. Lorillard and entered his two-year-old gelding Dacotah II., by Onondaga, dam Sophronia, a full brother to Locohatchee, in the classic event. Of the fact that geldings are eligible to the Derby the Spirit entertained no doubt. Yet so many varying opinions were expressed that in order to set the matter beyond all caril we cabled to the Messrs. Weatherby, London, publishers of the English Racing Calendar, with the following result:

Spirit of the Times, New York: pirit of the Times, New York: Geldings are citable for entry in Derby, Wearnessy.

Geldings are eligible for entry in Derby, Weatherny.

Although the conditions of the Derby are explicit enough, as they read, "For three-year-olds, coits D stone, fillies 8 stone 9 pounds," the matter raised quite a little flurry in local newspaper circles, and the amount of misinformation developed regarding the Derby was something startling. Old and experienced racing men stootly maintained they had always understood a gelding could not start for the event. Recourse to the records by the persons interested brought little consolation, for, while plenty of instances were found where geldings and started in the Derby, the question with them still remained as to whether such entries had been made as geldings or as entire colts. This point, too, might have been settled with more careful investigation, for geldings have been repeatedly entered in the Derby, an instance in point being in 1878, when Mr. Gerard's bay gelding Cincinnatus was one of the entries.

However, the Messrs. Weatherby's cable leaves
no further room for argument. The entry of
Dacotal II, has no doubt been duly recorded,
and the parties to the contention will doubtless now unite in a hearty wish that through
this youngster Mr. Lorillard may a second time
win the greatest and most coveted of turf prizes.

#### TO SAIL ON THE PARIS.

Cornell's 'Varsity Crew Will Leave for

Passage was engaged yesterday to Southamp-on and return by the American line steamers for the Cornell 'varsity crew. The party will consist of sixteen persons. It is peculiarly fitting that the Cornell oarsmen, who have won thirty-three consecutive victories and not suffered a single defeat in thirteen years, should cross the Atlantic by the only prominent steamship line flying the American flag.

The linaca oarsmen, with paper shells, will

sail from New York on May 20 on the Paris, and at once proceed to Henley, where they will train for the Grand Challenge Cup Race, to be rowed on the Thames during the second week of July In this event the American collegians will meet the best crews of England, France, and any championship of the world, and will include the famous Leander eight, composed exclusively of the best oars of Oxford and Cambridge universities. This will be the first American eight-oared crew to visit England and row in England's greatest regatta at Henley, although several four-oared varsity and amateur crews of this country have in past years competed in England with varying success.

Everything connected with this trip will be American throughout—an American university crew, composed entirely of Americans, coached by Charles E. Courtiney to row a distinctively American stroke; to row in paper boats made only in America, and rigged according to American ideas, and carried to and from England on an American line of steamships. championship of the world, and will include the

# How Pennsylvania Regards the Action of

PHILADELPHIA, March 21.-The action of the Harvard faculty in so soverely condemning the game of football and threatening to abolish it, considered at the University of Pennsylvania as being too radical and severe. General regret is expressed among the students. John C. Bell, Chairman of the Football Committee, in an in-

Chairman of the Football Committee, in an interview yesterday said:
"I am disappointed at the action of the faculty, but I still have hopes that the matter will be brought right. It seems as if the decree of the faculty and the concessions of the Athietic Committee are irreconcliable, but when the faculty considers how very different the conditions will be this year under which the game will be played, the matter may be amicably adjusted. Even if the faculty were to persist in their determination, the game of football will not be destroyed, but only crippled. I think the majority of people agree with the views expressed by Dr. Pepper, and should they preavil there need be no fears about the game."

# No More Intercellegiate Contests at War

BOSTON, March 21 .- Yesterday afternoon Capt. Brower notified the candidates for next fall's Harvard eleven that all further training would be given up for the present. This indicates that

be given up for the present. This indicates that football at Harvard is practically dead, and a revival is very uncertain.

There will be no more intercollegiate contests, no more chances to whip Yallo or wipe out the defeat inflicted by Pennsylvania last fall. On the contrary, Harvard men must be content with a series of class games hereafter on Soldiers' Field for the championship of Harvard University.

BYRNE ON ROBISON'S PREDICTION.

Brooklyn's President Makes a Few Re-marks About the Cleveland Magnate. Frank De Hass Robison, President of the Teveland League Club, made a prediction in THE SUN on Tuesday as to how the National eague teams will finish this season. He put the Brooklyps in ninth place, and placed the cranks in Brooklyn read the Cleveland magnate's slate there was a howl of anguish. When President Byrne was found yesterday, he at first declined to make any comment, aside from remarking that he found it difficult to believe that his friend Robison had been correctly quoted, as he believed him too level headed and too good a fellow to thus assail his dearest

quoted, as he believed him too level headed and too good a fellow to thus assail his dearest friend. On being positively assured, however, that the Cleveland President had been accurately quoted, Mr. Byrne remarked:

"Well, I feel sorry for Frank Robison, I am afraid he is like a good many other good fellows who come from some five-story, fresh-water town in the West, and when they reach this twenty-four-story metropolis they lose their heads and have to talk loud to let the world know they are alive. Of course, Frank Robison has lived so long on the shores of Lake Erie that it is hard for him even when he reaches New York to throw off the matural freshness of his home atmosphere and benefit by our salt air. After he is here a few days, however, he will change. We haven't heard a word from the Cieveland President all winter about hasehalf. His team made such a good showing last year he was too modest and too depressed to talk baseball at home, but how brave he becomes when he gets away from home!

"He places Brooklyn minth, does he, and his club among the leaders? Well, that is ricancess, indeed. Why, Brooklyn beat Cieveland out in the championship race, and also in the series to tween the two clubs. It was by a mere series he was the head the second division has team is able to head the second division this year." "What do you think of his picking Hoston as a sure winner?" was asked.

"He places Boston first, does he? Do you know the reason why? I'll tell you. A chap who goes about thinking he can whip all creation, sooner or later meets the wrong fellow, and ever afterward has a wholesome respect for the fellow who took the conceit out of him. You remember the double season of 1882, and the selectific and unmerful drubbing Boston gave Cieveland in the final series? I know my good friend President Robison has a distinct receilection of those days, Boston first, of course, in his option. Seriously, though, I know Mr. Robison hardly meant all he said. He knowe Brooklyn is 30 per cent, tringer than last year, and

The game was very interesting from the fact that the fielding was grand on both sides. Van Haltren made a one-handed circus catch of a line drive by Wilson to right centre, while Burke was everywhere and took everything that Van Haltren could not get. Stafford succeeded in breaking down a couple of line hits and throwing out his man each time, while Capt. Davis made a etop of a ball off German's bat which looked good for a hit. Krauss and Farrell were the battery for the regular team for five innings, and Knauss did nice work. Clarke relieved him in the sixth and also did well. Meekin and Wilson started in for the second team, and in the sixth German relieved Meekin and did nicely. The boys will take their last practice to-morrow morning and will leave here for Columbia, S. ### Freedman Still Buying Stock.

Since the big baseball deal by which Andrew man secured control of the New York Club closed he has been quietly buying up stray shares of stock. When the old stockholders sold out they each retained a few shares, but these have now been called in, and the following men do not hold a single certificate: C. T. Dillingham, E. A. McAlpin, F. B. Robinson, John M. Ward, A. J. Roach, Cornelius Van Cott, and E. B. Talcott. W. H. Wheeler, who holds twenty shares, has not sold out yet, but Prasident Freedman is willing to buy at any time. A telegram was sent to Buck Ewing, who holds fitteen shares, yeaterday offering to purchase his stock at the same price paid to the other stockholders. James H. O'Rourke, the ex-New York player, holds thirteen shares, but so far he has refused to part with them. Fred Pfeffer, who had twenty shares, sold out recently, but John Addison of Chicago still owns 100 shares. Mike Tiernan has in his possession Ed Crane's five shares, and will probably receive his price for them. The one share held by Wagner some time ago was turned over to the League as part of a deal. President Freedman says he will buy out any of the remaining stockholders who want to accept his terms. His idea is to have the club controlled entirely by New Yorkers. At present he holds 1,244 shares, which is considerably more than enough to control the policy of the club. men do not hold a single certificate: C. T. Dil-

THEIR MEMORY STIRRED.

A Benefactor of Other Years, Being Nord ed Again, Is on Hand for Buty.

A nation investmed with war looks about to enders, and naturally turns its eyes to veterans who have fought well in previous contests. So people attacked by disease and seeking a remody inquire what has belied them in other years. The grip is here again, and in some places has assumed a form more maglinant than over, it will doubtless prowl about looking for victims until the settled weather of string.

Now, it is a matter of medical history that, when grip was here before it was quickly thrown off by bodies that had been strengthened by a stimulant of the bighest order of excellence. To hasten complete recovery after the grip Duff's Fure Mait Whiskey was employed. That the same remedy is doing the same good work to day appears from a letter written by Mr. Thomas Barrett of Seammon, Kan, who says. "Having been continually coughing, with pains running through my body, and being onable to work. I took two oxtless of Duff's Pore Mait Whiskey. I am now able to work. The cough and someness on my chest are almost gone." Ay Inquire what has belped them in other years.

cough and soreness on my chest are almost gone."

The cough, headache, and soreness of muscle following the grip are never helped by local application. Being signs of a general weakness, they are thrown off only when the whole system is toned and stimulated, so that no organ does to much or too little. To do this is the mission of Duffy's Pure Malt Whiskey.

All who remember how it gave them clear heads, sound stomachs and a healthy circulation when they were getting over the grip in other seasons, have supplied themselves with Duffy's Pure Malt and have pointed out to their neighbors a way to avoid misery and loss of time. Is not the suggestion worth listening to 2—Ade.

#### DR. STAFFORD A CHAMPION.

He Wrestles His Way to Victory in a Long Bont at the New York A. C. The amateur wrestlers of the New York A. C.

furnished some enjoyable sport in the club-house gymnasium last night. They were illvided into six classes, and the winner in each becomes club champion for the year. Entries were so numerous as to necessitate a two-night programme, and competition last night was programme, and competition last night was confined to preliminary bouts except in the 115-pound class. A. A. U. rules were tabooed in favor of club conditions, which provide that each pair should wrestle to a fall, but should one not ensue within ten minutes the decision to go to the competitor doing most work or showing most science. In finals, however the men are obliged to wrestle to a fall regardless of time limit. The summaries:

minutes.

One-hundred-and forty five-pound Class—First bout, F. Dlokey threw W. W. Scott, with an arm-and-neck hold, in 2 minutes and 18 seconds. Second bout, W. P. Page, Jr., threw C. W. Marsh, with a further half-arm Nelson, in 3 minutes 12 seconds.
One-hundred and sifty-eight pound Class—First bout, J. Keppler threw A. Kollstede, with a half Nelson, in 8 minutes 6 seconds.

#### Choyneki After Kilrain.

BALTIMORE, Md., March 21.-it is probable that Jake Kilrain and John L. Sullivan will on be brought together in a boxing match in New York. Arrangements with such an end in satisfactorily carried out the public will again When Kilrain arrived at his hotel to-day from

Boston, he found a telegram awaiting him from
"Parson" Davies, who is anxious to arrange a
ten-round match between Kilrain and Choyneki, to be fought in Chicago about April 1.
Kilrain said he would be obliged to disregard
this offer for the present, as his prospective
meeting with Sullivan would demand his time.
Referring to the card of Stove O'Donnell, Kilrain said:
"I see he offers to give the entire receipts if in
a second meeting he doesn't stop me in eight
rounds. I shall be glad to give him an opportunity."

Comin of the Bing.

There is a letter at this office for Johnny Mur-Frank Craig and Ted Pritchard are to box ten rounds for £200.
